

## FLENI Montañeses Clinic

### Project

#### Client

FLENI Clinic / Pérez Companc  
Foundation

#### Location

Buenos Aires City,  
Argentina

#### Period

1999 – 2002

#### Participation

Skanska LA: 100%

FLENI is an important medical center for prevention, diagnosis, treatment and rehabilitation for patients with neurological and neuropsychiatric illness.

Skanska LA has performed the construction of a new 10-storey building and the remodeling of the existing Neurological Center “Fleni Montañeses”. The program included the relocation of the internal and external patients areas. The comprised area were the following: Internment, external medical consulting, surgery, gynecology and obstetrics, pediatrics, medical subspecialties, urgency service, intensive cares, clinical laboratory, radiology, administration and general services.

The project also comprised the construction of a three-level parking lot for 80 vehicles.
